

# Meet the

My name's **Tempo** and I'm a *thermometer*.  
I'm really cool, but you may not be.  
It's my job to let you know when your  
body is too hot.

I'm a *tongue depressor*, but you can  
call me **Woody**. The doctor uses me  
to keep your tongue down and out of  
his way when he's trying to see the  
back of your throat. Don't bite down, **Otis!**

Hi, I'm **Otis**. Don't hide anything  
in your ears or eyes because I'll  
find it. When I look in your ears  
I'm an *otoscope*, and when I look  
in your eyes I'm an *ophthalmoscope*.  
Crazy, huh?
